SRE | DevOps & Cloud Engineer | MLOPS | AIML | CI/CD | GCP | AWS | Kubernetes | Terraform

Focused on automating cloud infrastructure, improving deployment pipelines, and ensuring operational excellence.

Professional Summary: DevOps & Cloud/SRE Engineer with 2.5+ years of experience in building and automating infrastructure, managing SRE, CI/CD pipelines, and deploying applications on GCP, Azure, AWS and multi-cloud platforms. Skilled in Kubernetes, Docker, Terraform, Jenkins, and monitoring tools, with a strong focus on improving system reliability and release speed. Experienced in working with cross-functional teams to streamline deployments and drive DevOps best practices.

TECHNICAL SKILL SET

- **Cloud Platforms:** AWS (EC2, S3, RDS, Lambda, Elastic Beanstalk, ECS (Fargate), Bedrock, Sagemaker, Secrets Manager, CloudWatch, and Elastic Load Balancer (ALB), GCP.
- **Containerization & Orchestration:** Docker, Kubernetes (EKS, AKS, GKE), Helm
- **Infrastructure as Code (IaC):** Terraform, CloudFormation, Ansible
- **CI/CD & Automation:** Jenkins, GitHub Actions, GitLab CI/CD, ArgoCD
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack, CloudWatch, Jaeger.
- **Security & DevSecOps:** Secrets Manager, IAM, Vault, SonarQube, Snyk
- **Version Control & Collaboration:** Git, GitHub, GitLab, Bitbucket
- **Scripting & Programming:** Python, Bash, YAML, Groovy, Javascript, MERN, Node JS

WORK EXPERIENCE

Ienegizer IT Service Pvt Ltd, Noida
Devops Engineer (AI /MLOps)

Dec 2025 - Present

- **AI Infrastructure:** Architected high-performance GPU clusters via NVIDIA CUDA and Docker on AWS/E2E, boosting model training efficiency by 40%.
- **MLOps & LLMs:** Orchestrated automated deployment pipelines for SageMaker and Bedrock, slashing model-to-production lead time by 50%.
- **Scalable Microservices:** Launched AI-driven voice-bots on AWS ECS Fargate and EKS, sustaining 99.9% uptime for 5,000+ concurrent users.
- **Real-Time Communication:** Synced WebRTC and Twilio APIs to refine STT models, hitting sub-200ms real-time transcription latency.
- **Serverless Data Pipelines:** Engineered Python workflows using AWS Lambda and EventBridge to streamline PostgreSQL data processing.
- **Cloud Optimization:** Scaled K8s and AWS resources dynamically, cutting monthly infrastructure spend by 25%.

Immersive Pvt Ltd, Pune
DevOps & Cloud Engineer

Jan 2024 - Nov 2025

Roles & Responsibilities:

- Fine-tuned containerized workloads on EKS, lowering cloud costs by 15% and accelerating release cycles by 20%.
- Configured HPA with custom metrics, reclaiming 20+ hours/month and maximizing resource efficiency.
- Strengthened CI/CD pipelines (Jenkins, Docker) to enable 40% faster deployments with zero critical incidents.
- Standardized Kubernetes deployments using Helm, minimizing manual intervention by 50%.
- Centralized Prometheus & Grafana monitoring, reducing MTTR by 35% and enhancing incident visibility.
- Executed blue-green and canary deployment strategies to ensure 100% zero-downtime releases.

Cuvette, Bangalore (Remote) Internship
Full Stack Web Developer (DevOps-Focused)

July 2023 to Dec 2023

Roles & Responsibilities:

- Rectified legacy deployment bottlenecks on AWS, improving delivery speed by 25% and saving 20% in cloud costs.
- Calibrated autoscaling and service usage across environments, trimming AWS expenditure by 20%.
- Programmed end-to-end CI/CD workflows, achieving 100% automation and eliminating release errors.
- Developed modular REST APIs with structured logging, cutting debugging time by 30%.

- Instituted CI-based **rollback strategies**, diminishing downtime by 90% and stabilizing releases.
- Governed **IAM roles, secrets, and Git policies** to maintain 100% security compliance.
- Transformed **monolithic applications into containers**, improving deployment consistency by 50%.

PROJECTS

Client Project – Virtual Car Showroom | Unity Azure, AWS, WebGL, Azure, Cloudflare, PWA

- Positioned a Unity WebGL game as a Progressive Web App (PWA) on **Azure Static Website** Hosting with secure HTTPS and caching and Configured GZIP compression (.wasm, .js, .data) and Refined WebGL assets to **reduce load time by 40%**.
- Enabled custom domain + SSL via Cloudflare, improved TTFB and SEO performance using edge caching and HTTPS and Merged **Cloudflare CDN** and Workers to route custom subdomain traffic via reverse proxy, reducing latency by **50%**.

MERN Stack Application – DevOps Approach

- Set up **CI/CD pipelines with Jenkins and Docker** for a MERN app, reducing deployment time by **35%** and ensuring error-free releases across dev, staging, and prod.
- Distributed the application on **AWS EKS with Terraform, Incorporated Prometheus & Grafana monitoring**, which reduced incident response time by **30%**

Book MyShow DevSecOps Pipeline

- Designed a full DevSecOps pipeline using **Docker, Kubernetes(EKS), Jenkins** and blended OWASP Trivy, SonarQube for code scanning, reducing security **risks by 40%** and Used Prometheus, Grafana, CloudWatch for centralized monitoring and alerting

Amazon Prime Clone on AWS

- Provisioned AWS Infra (EC2, EKS) with **Terraform** and Enforced CI/CD using **ArgoCD, Trivy, SonarQube**, and **Jenkins** and Configured centralized monitoring with **Prometheus & Grafana**, improving performance visibility by 50%.

EDUCATION

- | | |
|--|-------------------------------|
| • BTech, Computer Science Engineering from Shivaji University, Kolhapur (CGPI - 7.98) | April 2019- April 2023 |
|--|-------------------------------|

CERTIFICATIONS

- | | |
|---|---------------------------------|
| • AWS Certified Machine Learning Engineer Associates | March 2026 - March 2029 |
| • Kubernetes With Helm (Devops , Gen AI) | May 2025 - June 2025 |
| • DevOps and Multi-Cloud (Azure, Aws, GCP) (Paper Live Bangalore - Project Experience Certificate) | December 2024 - May 2025 |

EXTRACURRICULAR ACTIVITIES

AWS User Group – Pune (Dec 2024 – Present)

- Volunteered in organizing 5+ technical sessions on CI/CD, DevSecOps, IaC, and AWS automation with 100+ participants.
- Contributed as a **speaker and coordinator** in 3+ community meetups on containerization..
- Actively participated in 4+ hackathons and coding competitions, developing cloud-native and **DevOps-focused solutions**.
